At Eastlake park the old timers will see the old fashioned broncho riding of 1870.

## PERIL IMPENDS

(Continued from Page One.)

ed to state that some of the men who are United States senators of the party to which I belong have demonstrated that they are making a serious mistake by their actions in regard to statehood; that they should be ward politicians in a small ward in a very small city instead of United States senators.

"Our beautiful city is particularly well known for its hospitality and the warm welcome we give strangers who visit here. Following the good old Bible admonition to 'entertain the stranger' we should entertain an angel unaware." We entertained that little senator with a large head from Indiana. It did not take long to convince us after he returned to Washington that if he was an angel it was from below.

"I have listened to Mr. Smith's remarks regarding the attitude of President Roosevelt and do not doubt his statement that the president would last year have signed the joint statehood bill.

"President Roosevelt is very familiar with conditions in the west. He has lived among the men of the great west and he has rubbed shoulders with them upon its rocky hills and arid plains. He is our particular friend and always will be. No doubt when the machinery of the entire government was stopped in the United States senate last year he said to the different senators who were fighting over the statehood bill, 'agree on some bill, even to joining the two territories together and I will sign it.' But you could not make me believe that he will sign any bill joining Arizona and New Mexico together as one state when protests such as we pass here are sent to him from every county in Arizona.

"No men in any party are bigger than the platform they are elected upon. What we want to demand is that the president of the United States should fulfill the pledge in their national platform. That platform should under no circumstances be made to lie."

At the conclusion of the address by Mr. Smith, Judge Baker introduced the following resolutions as expressive of the people of Phoenix:

Whereas, Grave dangers exist that the senate and house of representatives of the United States of America in congress assembled will enact a law uniting the territories of Arizona and New Mexico and admitting the two territories into the union as one state; now therefore, be it

Resolved, That we, the citizens of the city of Phoenix and county of Maricopa, territory of Arizona, in mass convention assembled do hereby earnestly protest against any forced political union of the two territories as the greatest calamity that could befall either territory for the following reasons:

First, For forty years each one of the territories has dealt with the particular conditions existing within its limits, resulting in the adoption and growth of different local customs, separate code laws, different methods of taxation of property and separate political subdivisions; and during this time the people of the two territories have at great expense and sacrifice established and maintained appropriate educational, penal, charitable and other public institutions, and under these conditions to unite these territories

## WINTER IS COMING BRINGING CATARRH

Every Catarrh sufferer dreads the coming of winter, for with the first breath of the "ice-king" this miserable disease is fanned into life and all the disgusting symptoms return. The nostrils are stopped up and the throat can be kept clear of mucous secretions only by continual hawking and spitting. Catarrh is a nuisance and source of annoyance, not only to the one who has it, but everybody else. The thick, yellow discharge from the head produces a feeling of personal defilement, and the odor of the breath is almost intolerable.

The catarrh poison brings on stomach troubles and affects the Kidneys and Bladder. It attacks the soft bones and tissues of the head and throat, causing total or partial deafness, the loss of smell, and giving to the voice a rasping, nasal twang. No part of the body is secure from its ravages. Catarrh makes you sick all over, for it is a disease of the blood, and circulates all through the system, and for this reason, sprays, washes, inhalers, powders and salves have proven failures.

The way to cure Catarrh thoroughly and permanently is to cleanse the blood of the unhealthy secretions that keep the membranes of the body inflamed, and nothing does this so surely and promptly as S. S. S. As long as the blood is poisoned with Catarrh matter the discharge of mucus and other disgusting symptoms of the miserable disease will continue. S. S. S. goes to the fountain source of the trouble and purifies and enriches the blood, and so invigorates and tones up the system that catching cold and contracting Catarrh is not so likely to occur. Keep the blood in order and winter's coming brings none of the discomforts of Catarrh. Write us particulars of your case, and let our physicians help you get rid of this blood-tainting and stubborn disease. We make no charge whatever for medical advice.

THE SWIFT SPECIFIC CO., ATLANTA, GA.

## HAPPY AND HEALTHY.

A Beautiful Canadian Girl Saved From Catarrh of the Lungs by Pe-ru-na.

MISS FLORENCE KENAH.

Miss Florence E. Kenah, 431 Maria street, Ottawa, Ont., writes: "A few months ago I caught a severe cold, which settled on my lungs and remained there so persistently that I became alarmed. I took medicine without benefit, until my digestive organs became upset, and my head and back began to ache severely and frequently. I was advised to try Peruna, and although I had little faith I felt so sick that I was ready to try anything. It brought me blessed relief at once, and I felt that I had the right medicine at last. Within three weeks I was completely restored and have enjoyed perfect health since."

F. E. KENAH.

WOMEN should beware of contracting catarrh. The cold wind and rain, sleet and mud of winter are especially conducive to catarrhal derangements. Few women escape.

Upon the first symptoms of catching cold Peruna should be taken. It fortifies the system against colds and catarrh.

The following letter gives one young woman's experience with Peruna:

Miss Rose Gerbing is a popular society woman of Crown Point, Ind., and she writes the following: "Recently I took a long drive in the country, and being too thinly clad I caught a bad cold which settled on my lungs, and which I could not seem to shake off. I had heard a great deal of Peruna for colds and catarrh and I ASK YOUR DRUGGIST FOR A FREE PERUNA ALMANAC FOR 1904."

faithful employe addressed, "Is a lobster." Whether he was aware of it or not, the answer was absolutely descriptive. The name was derived from those crustaceans which have ten feet and are deliberate of motion. The lobster has ten feet and moves slowly.

A wife will always trust a husband who pretends not to have noticed whether another woman is pretty.—New York Press.
